

NOTICE OF MAINTENANCE CONSTRUCTION

SCHOMBERG WATER TREATMENT PLANT

IMPROVEMENTS
ARE COMING.
LEARN MORE!

Dear Schomberg Resident:

Friday, June 9, 2017

Please be advised on Monday, June 12, maintenance construction activities at the Schomberg Water Treatment Plant located at 210 Western Avenue will begin. As crews will be working on the plant's water filtration system, two large mobile water filtration trailers will be used to maintain high-quality water treatment for the community while work is underway. Construction is expected to take up to 12 months to complete. Crews will work during the day Monday to Friday, however some weekend work may be required.

During construction, there will be no service disruption to your tap water and it will continue to be clean and safe to drink.

WHAT YOU CAN EXPECT:

- Two mobile water treatment trailers parked on York Region property in front of the plant
- Increased construction-related activity and truck traffic around the plant (Western Avenue)
- Due to the nature of the work, at times there may be construction-related noise, dust and vibration disturbances from equipment and trucks

Above: Mobile water treatment trailer

IMPORTANT INFORMATION:

- We respectfully request you follow the Township of King's Outdoor Water-use Bylaw; water only if needed on odd or even-numbered days depending on if your house is odd or even-numbered
- We understand any construction work is disruptive to those who live, work and play in the area and we have taken steps to reduce the impacts where possible; we greatly appreciate your cooperation and patience while we complete this project

We will be providing project updates as they become available. Please visit york.ca/waterconstruction. Should you have any questions or concerns related to this project, please do not hesitate to contact us.

Respectfully

Michelle Dudzik
