

## NOTICE OF PUBLIC CONSULTATION CENTRE # 2

### KING TOWNSHIP WATER/WASTEWATER AND STORMWATER MASTER PLANS

#### INTRODUCTION – *What are these Master Plans all about?*

The Township of King has initiated a review and analysis of water, wastewater, and stormwater services in King City, Nobleton and Schomberg which will result in Water/Wastewater and Stormwater Master Plans to support projected growth scenarios outlined in the Growth Plans in place for each community (King City, Nobleton, Schomberg), and to ensure systems are adequate for the existing communities.

These studies will support the Township's Official Plan and the individual Community Plans. The studies will consider all lands designated for development, plus an allowance to accommodate intensification within the existing development limits as established by York Region and the provincial Growth Plan (Places to Grow).

#### PUBLIC CONSULTATION CENTRE DETAILS – *We want to hear from you!*

Public consultation is a key component of the Master Plan process. The initial PCC was held in May 2014 to present the Study Background and Objectives. We would like to invite you, your friends, and your neighbours to participate in an upcoming Phase 2 Public Consultation Centre (PCC). At this Phase 2 PCC, you will learn about the preferred solutions for water, wastewater and stormwater management. You will have the opportunity to ask us questions, share your thoughts and opinions. Your input will help ensure there is adequate water, wastewater and stormwater infrastructure in place for your community that can also support mandated growth in King Township. Your participation in PCC process is important to us.

This second round of PCCs has been scheduled for:
