

NOTICE OF COMMENCEMENT
KING TOWNSHIP WATER/WASTEWATER
AND STORMWATER MASTER PLANS

INTRODUCTION – *What are these Master Plans all about?*

The Township of King has initiated a review and analysis of water, wastewater, and stormwater services in King City, Nobleton and Schomberg which will result in Water/Wastewater and Stormwater Master Plans to support projected growth scenarios outlined in the Growth Plans in place for each community (King City, Nobleton, Schomberg), and to ensure systems are adequate for the existing communities.

These studies will support the Township’s Official Plan and the individual Community Plans. The studies will consider all lands designated for development, plus an allowance to accommodate intensification within the existing development limits as established by York Region and the provincial Growth Plan (Places to Grow).

MASTER PLAN CLASS ENVIRONMENTAL ASSESSMENT – *A formal Ministry of the Environment Process*

These studies are being conducted in accordance with the requirements of Phases 1 and 2 of the Municipal Class Environmental Assessment, which is an approved process under the Environmental Assessment Act.

The MPCEA process includes public and review agency consultation, an assessment of the problem and opportunities, an evaluation of alternative solutions, an assessment of potential effects on the environment, and identification of reasonable measures to mitigate the adverse effects. The preferred solution(s) will be determined based on engineering requirements, environmental considerations (natural, social, economic), public input and information gathered during the studies.

ATTEND A PUBLIC CONSULTATION CENTRE – *Help us plan for the future!*

Public consultation is a key component of the MPCEA process. We would like to invite you, your friends, and your neighbours to participate in the Public Consultation Centres (PCCs) to inform these studies. At the PCCs, you will be able to learn about our approach and our findings, ask us questions, and share your thoughts and opinions. Your input will help ensure there is adequate water, wastewater and stormwater infrastructure in place for your community that can also support mandated growth in King Township. Your participation in PCCs is important to us.

For more information on the project and the dates for the upcoming PCCs, please visit <http://www.king.ca/WaterMasterPlans>, or contact the Project Team directly:
