Residential Deck Structure Application Guide

Description

A building permit for a deck, porch, veranda, or balcony.

General Information

A building permit is required for any deck or porch attached to a building regardless of area or height above grade. A building permit is not required if a deck does not exceed 60 centimeters (approximately 23.6 inches) above grade and is not attached to another structure. All decks, regardless of size and height above grade must comply with all applicable law and all Zoning By-laws.

Additional Requirements prior to building permit application

The Building Code Act prohibits the issuance of a Building permit if the proposed construction or demolition contravenes any Applicable Law as defined in the Ontario Building Code. Furthermore, **applications that do not have the required Applicable Law documentation with their building permit submission will not be processed.**

Please verify all approvals that may be necessary prior to submitting your application to construct. The following are examples:

- **Zoning Certificate** (King Townships Planning Department)
- **Site Plan Development Approval/Agreement** (King Townships Planning Department)
- **Approval or Permit from Lake Simcoe Region Conservation Authority or Toronto Region Conservation Authority**
- **Committee of Adjustments** – Minor Variance Approval

Required Drawings

Survey or Site Plan

Survey or Site Plan, referenced to a current survey, showing the size and location of all existing structures, the new proposed deck or structure(s) and distances to property lines. Location of septic tank and bed to be shown where applicable. Site plan to include Zoning Matrix which contains but not limited to; zone, lot coverage, setbacks and heights as well as pervious surface percentages for the entire lot and front yard where applicable.

Construction Drawings - Plans

Foundation plan to show location of footings, footing size and spacing, as well as, details for concrete slab(s) where applicable. Deck plan to show all construction material types including decking, size and spacing of deck joists, beams, columns, posts and location of stairs. Plans to be fully dimensioned indicating all spans for joists and beams. Elevations to show every side of the deck, porch, veranda or balcony and should indicate height above average grade.

Sections & Details

Section(s) to show footing depth, deck height above average grade and guard or railing height. Deck connection specifications and details to show how the deck will be attached to the existing structure. Stair and landing construction details including height and depth of stair treads, handrails heights and guard and railing connection specifications. Show headroom above stairs (where applicable).

Note: Drawings prepared by a qualified Designer as defined by the Ontario Building Code, must include designer's name, Building Code Identification Number (BCIN), signature, and statement that the designer has reviewed and takes responsibility for the design and meets the qualifications set out in the Ontario Building Code as a Designer or other/independent Designer
