NOTICE TO RESIDENTS

Dear Resident/Homeowner

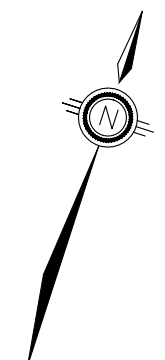

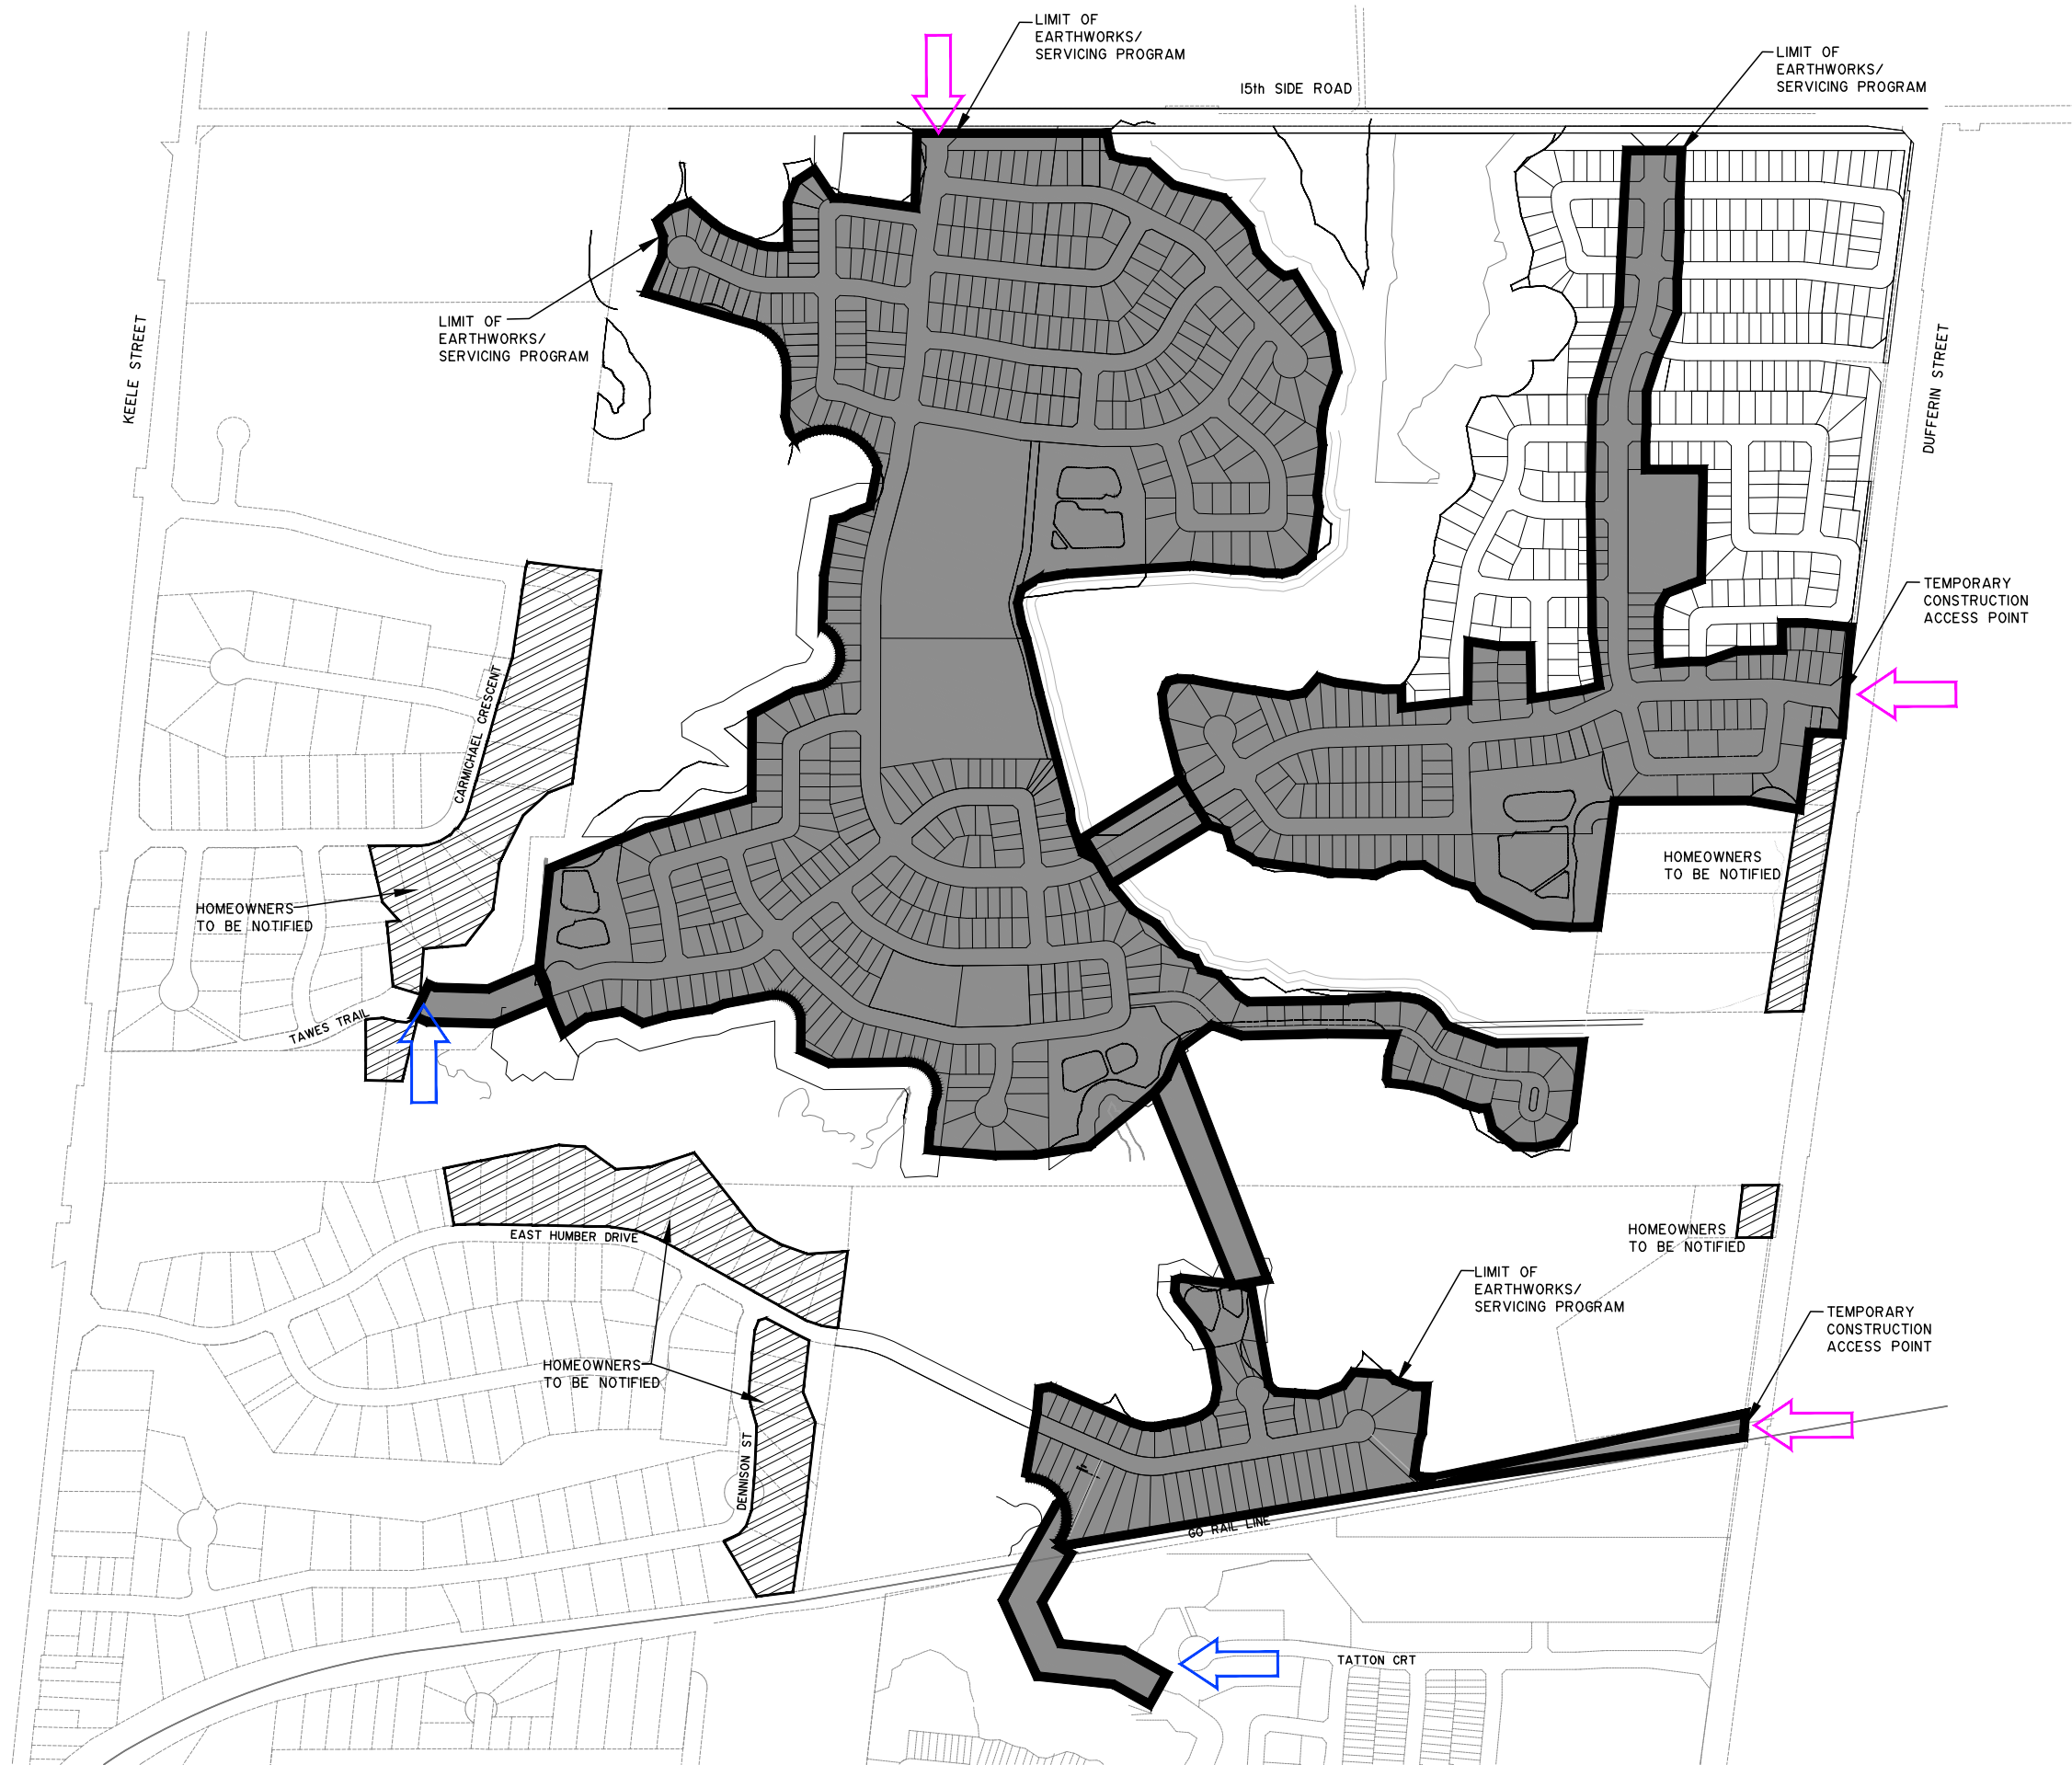

Subject: Spine Servicing Construction – King City East Lands

Please be advised that the King City East (North) Landowners Group will be commencing earthworks and spine servicing operations effective March 15, 2021. The duration of the works will extend through the remainder of the year until December 2021 depending on weather conditions. The operation will involve heavy construction equipment and dump trucks. As part of the spine servicing construction there will be connections to existing municipal infrastructure, the contractor will minimize all works in these areas. Access to the site will be via dedicated construction access points on Dufferin Street and 15th Sideroad as shown in the attached plan. There will be no access to the site from residential streets. Construction activities will be restricted to the period of 7:00am to 7:00pm Monday through Saturday, excluding statutory holidays. The contractor will be required to implement appropriate erosion and sediment controls, dust control measures and minimize mud tracking onto adjacent arterial roadways.

If you should have any questions or concerns, please contact Mr. Thomas Evans from this office at tevans@skaengineering.com or 905-426-9451 ext. 251 with any questions or concerns.

Yours very truly,
SABOURIN KIMBLE & ASSOCIATES LTD.
