Corporate Services

The Corporate Services Department provides a range of services that ensure compliance with legislative requirements, support Township corporate initiatives and address community needs. These services range from the provision of Council and governance support, development and delivery of corporate communications, administration of the ServiceKING customer center, human resource management and, legal and legislative services including permitting and reporting.

Public Works

The Public Works department is responsible for the operation and maintenance of the Township's owned transportation infrastructure, including roadways, water distribution, wastewater collection, stormwater collection and treatment systems. The department manages infrastructure projects related to the systems it operates and maintains. The department also administers subdivision agreements, plans for, and manages Township physical assets, and provides direct public services via permitting, consents and locates

King Township Public Library (KTPL)

King Township Public Library (KTPL) is a multi-branch system that offers universal access to both traditional and progressive programs and services, both in person and online, as well as a contemporary, innovative multi-format collection. The wide variety of content, services, programs, and outreach initiatives offer access to information, community spaces and entertainment for people of all ages. Access also includes connecting to the Internet through public workstations, tablets, and laptops, as well as wireless services to support personal electronic devices, but also through available staff-led guidance. The Library is very engaged in the King community, as exemplified by our numerous partnerships, community relationships and presence at a variety of community events. We strive to achieve the highest level of customer service excellence and are committed to ensuring the Library remains relevant and responsive to community needs.

Community Services

The Township of King's Community Services Department's central business is community recreation. We offer a variety of programs and services for residents of all ages and abilities (infant to senior). Our programs include sports, arts and culture, aquatics, summer camps, infant/toddler development, environmental discovery, workshops, and fitness. The Community Services Department also manages and maintains a variety of recreational facilities and outdoor spaces for residents to enjoy - which include parks, trails, playgrounds, a fitness center, conservation areas, an outdoor pool, basketball courts, arenas, King Heritage and Cultural Centre and community centers with ice pads. The department leads capital projects and programs for non-linear assets (parks and facilities).

Growth Management Services

The Growth Management Services Department (GMS) consists of Building, By-law Enforcement, Economic Development and Planning Departments. GMS is responsible for many growth-related processes for the Township. Roles and responsibilities include such things as business attraction, expansion, support, and retention (Economic Development), through to development review and approvals (Planning), issuance of building permits (Building), to monitoring compliance of buildings and activities with Municipal by-laws to ensure compliance and maintain a safe/comfortable community (By-law Enforcement). Many of these activities are directly related to each other so a comprehensive, synergistic approach to process development activity in an efficient manner is an important underlying basis for the activities of the Department.
